Get a fresher, cleaner, chlorine free shower

Chlorine is used to disinfect most tap water. **But chlorine can make your skin dry, sensitive, flaky, and itchy.** It irritates your eyes and makes your hair dry and unmanageable. Worse yet, chlorine and chlorine by-products aggravate symptoms for many asthma, allergy, sinus and emphysema sufferers.

Chlorine reduced by 95%

The Le Bleu Shower Filtration System converts chlorine to a harmless chloride. Le Bleu Shower Filtration System also reduces or removes combined chlorine, hydrogen sulfide (sulfur), scale, sediment, iron oxide, and odors.

Lasts much longer than other filters

Le Bleu Shower Filtration System has 10 to 20 times the life and effectiveness of any carbon-only filter. While a carbon filter works well in cold water only, the **patented zinc-copper alloy plus Chlorgon (a manufactured ceramic bead that has been impregnated with calcium)** used in Le Bleu Shower Filtration System performs best in warm or hot water. And Le Bleu Shower Filtration System contains over 50% more filtering material for a longer effective lifetime than most other filters.

Easy to install

Le Bleu Shower Filtration System installs easily by hand. The **filter cartridge last 15,000 gallons or 12-18 months** and can be replaced in just a few minutes. Includes multi-jet massage head with adjustments for full body spray, massage, or spray/massage.

"We have a lot of iron in our H2O—this filter worked the first time in reducing iron smell and increased softness."

June Ward, Bellefontaine OH

"The Le Bleu Shower filter has made a big difference in the softness and manageability of my hair."

Leah Oblak, Dayton OH

"It does exactly what it promises—significantly reducing your exposure to a chemical that you really don't want in your body or on your skin. I give this terrific device two thumbs up."

Jonny Bowden, PhD, CNS

"Fabulous! At long last I've found the secret to silky, shiny, manageable hair and it's not even a hair product!

What a difference!"

Dana Begley, Pittsburgh PA
